

## "Adventure High Arctic"

The Drayton Valley Rotary Club reminds residents of the town and area of the showing of Edgar T. Jones' "Adventure High Arctic" in the St. Anthony School Auditorium on Thursday, April 18th at 8:00 p.m. This is an opportunity to see one of the most unusual and complete films ever produced on the Canadian Arctic and high arctic regions. Advance tickets are available from Rotary members.

## 1,000 Delegates Expected Here

Drayton Valley has been selected as the site for the next three-day circuit assembly of Jehovah's Witnesses, Alberta circuit Six, May 3, 4, and 5.

Mr. Tom Moss, presiding minister of the local congregation, advises that the convention will attract some 1,000 delegates and interested persons from northwestern Alberta. "This will really tax the accommodation facilities in Drayton Valley", said Mr. Moss, "because many delegates will be coming with their entire families and will spend the whole weekend in this town."

The convention will be held at The Centennial Civic Center and Mr. Moss states that the Witnesses will set up their own cafeteria in the arena to feed the delegates.

The purpose of the convention is to provide practical counsel for Christian families on maintaining a strong family circle and building up good relations between parents and children.

Featured speakers of the convention will be J.F. MacPherson and Ernest Adamson, district and circuit supervisors of the Watch Tower Society from Toronto. Mr. MacPherson will deliver the main talk of the program on Sunday on the subject "Why Does God Permit Wickedness?"

Other sessions will be held

in the afternoon and evenings with the mornings devoted to home visiting by the convention delegates.

Congregations will be represented from Hinton, Edson, Evansburg, Whitecourt, Barrhead, Busby, as well as groups from Jasper and McBride, B.C. Also six of Edmonton's seventeen congregations will be sending delegates to Drayton Valley.

## Bull Sale Saturday

A busy weekend is in prospect for Drayton Valley with the second annual bull sale scheduled for Saturday, April 20th. Based on the first year response farmers from a wide area are expected to be on hand for this year's event.

The sale, sponsored annually by the West Alta Livestock Breeders Association, will be preceded this year by a livestock show that gets underway at 11:00 a.m. To be held at Sekura Auctions, the sale itself is scheduled to start at 1:00 p.m.

About 30 animals of the Shorthorn, Angus and Hereford breeds have already been listed and more listings expected this week.

## Entwistle Library Seeks Books, Help

Anyone having books that they would care to give to the library, please leave them at the village office any week day from 1 to 5 p.m.

If you are interested in setting up or running the library we would appreciate any help that is available. You could contact Mrs. Shirley Sullivan or anyone of the Board. It is hoped that we can open the library around the first of May. The membership fees are: Grades 1 to 6 and pre-schoolers, 25¢ per year; Grades 7, 8 and 9, 50¢ per year; Adults and senior high students, \$1.00 per year.

## Baseball League Meeting

The Oilfield Baseball League will hold its annual meeting April 23rd in the Calmar Legion Hall.

In addition to electing a new slate of officers for the 1968 season, the meeting will consider two new applications for league franchises.

President Ron Hayter said that Stony Plain Elks and Edmonton B.A. '98'ers have applied for membership.

Last year, the Oilfield loop comprised teams from Devon, Leduc, Drayton Valley, Warburg, Breton, Millet, Glen Park, Winterburn and Calmar.

The meeting will get under way at 8 p.m.

## Calgary Power Spending \$29.2 Million on Projects

CALGARY--Production of electrical energy within the whole of Alberta has increased some 9½ times over the last twenty years compared to about 3½ times for Canada as a whole. This is perhaps one of the best barometers of Alberta's development, reports A. W. Howard, President of Calgary Power Ltd. in the Directors' annual report for 1967 to the shareholders.

Capital expenditures of \$29.2 million included such major projects as the completion of a second unit at the Big Bend Plant of the Brazeau Water Power and Storage Development with a capability of 190,000 kilowatts and commencement of construction of a permanent spillway section at the Brazeau Dam; completion of a new head office building in Calgary; commencement of construction of the first 286,000 kilowatt steam electric generating unit at the Sundance site south of Lake Wabamun to be in service by 1971; completion of the final 286,000 kilowatt steam electric unit in the Wabamun Plan to be in service early in 1968; further expansion of the

## Blood Donor Clinic At School Monday

The Drayton Valley Blood Program of The Canadian Red Cross Society has switched from glass bottles to the more convenient plastic blood packs for collection, storage and transfusion of blood, according to Mrs. A.C. McKillop, Blood Donor Chairman.

The next Blood Donor Clinic in Drayton Valley will be held in the Frank Maddock High School Auditorium on Monday, April 22nd from 2:00 to 4:30 p.m. and from 7:00 to 9:00 p.m.

In commenting on the reasons for the change to plastic packs Dr. G.W. Miller, National Director of the Red Cross Blood Transfusion Service pointed out, "Doctors today are taking a hard look at blood transfusion equipment presently in use and which was developed during World War II. They are finding that this equipment is no longer adequate for the era of blood component therapy into which medicine has entered. This newer concept of the use of blood in the treatment of bodily ills must necessarily re-define the functions, equipment and techniques of the blood service."

"In blood component therapy the Doctor prescribes only the specific constituent of whole blood which a patient needs--and not whole blood which the patient may not need. The doctor may order an infusion of red cells to combat anemia, platelets to control bleeding, or albumin to prevent shock. Each component is given the patient in the amount he needs

and at the intervals required." The techniques of blood component therapy demand safe, flexible plastic units.

## Police Report For March

The monthly police report submitted by Chief Constable R. Doig to Town Council shows a total of 69 complaints received during the month of March. Eleven of the complaints concerned dogs.

The department was short-staffed throughout the month while Constable Crerar attended a recruit training course in Edmonton. Constable Crerar completed the course and passed all examinations with an average mark of 86 per cent.

The department was brought back to full strength of four, with the employment of Constable Alan Scholey who commenced work on Monday, April 8th.

Three motor vehicle accidents were reported during March with a total property damage of \$1,100.

## Hall Work Progressess

The Legion 5-Pin bowling championships roll-off will be held in Edmonton, hosted by Branch 150, Strathcona, on May 11th and 12th. Members interested should contact Chris Frank for details and entry forms.

The Drayton Legion will hold a Bavarian Night on April 26th. Members and guests are reminded to secure tickets now--they are in short supply.

The new kitchen and wash-room facilities are progressing nicely; however, volunteers are urgently needed. Anyone interested in contributing a few productive hours to this worthwhile effort should contact a member of the executive or just come down to the hall.

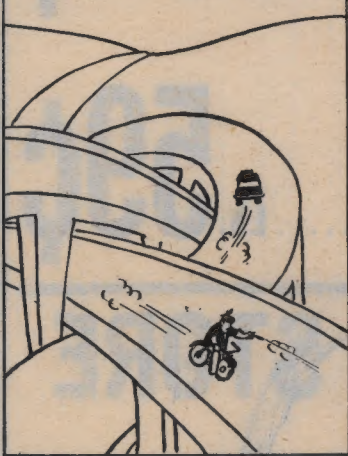

## Baseball Clinics

A province-wide baseball clinic program organized by the Northern Alberta Baseball Association, the Alberta Baseball Umpires Association and the Alberta Department of Youth will get underway immediately.

The two-day clinics will consist of one day's instruction in coaching and one day in umpiring and interpretation of the rules.

Any baseball organization in the province, which would like to have a clinic conducted in their community by well-qualified instructors, should contact the local recreation director, recreation board of any of the Youth Department's four area recreation consultants.

## EVANSBURG

MRS. M. BRUNER,  
Correspondent

As this is being written, spring seems far far away as the ground is all white from the most recent snowfall. However, so as not to discourage us that spring will never come, one of our hens has hatched out a family of six wee chicks. This must be a sure sign of spring and Easter.

A very large crowd of interested people turned out to the Evansburg School Auditorium on the 4th to enjoy the program put on by some of the students. This show was sponsored by the Students' Union and consisted of plays and skits, along with commercials. It was very much enjoyed by all who went to see it.

The Legion Hall was the place where friends and members of the gymkhana club met to dance, a very sumptuous turkey and ham supper was served around midnight.

Local 4-H club leaders attended the Northwest Region Bonspiel held at Spruce Grove on the 6th. At the same time interested leaders and parents met to appoint an organizing committee in order to organize this region so that all 4-H clubs activities in the area may be made more aware of what other clubs are doing.

The students from the junior part of the junior-senior high school had one day off last week when the senior students held a career day at the high school.

The Wolf Cub Pack all went on a tour of the RCMP barracks on their last pack meeting night. From all reports it was a very interesting tour and much enjoyed by the boys.

Renewed activity is taking place at the new John Deere agent building since Mr. and

Mrs. Ivan Brown are back from their trip to Germany. From the little reports I've heard, they had a most interesting time enjoying new experiences both in the things seen and the food eaten. I am sure this is one holiday they will treasure for a long time to come.

Members of the Community League held their regular meeting at the village office recently. It was decided to pay off between three to four hundred dollars on the Centennial Rink. It was also decided to change the regular meeting times to the fourth Monday of every month. The next meeting will take place on May 27th.

## Name Tags Available

At various times during the year your organization or club may require identification labels for conventions or other gatherings of a type that can use name tags for those in attendance. Bert Telford, Northwestern Utilities local agent, advises that he has a supply of the sticky-backed labels that are available free of charge.

The labels stick well to clothing and pull off cleanly without damage to cloth. The gas company has been distributing the labels for the past two years and in that time has given away 60,000 of them.

## Beef Club Meeting

By TERRY BENTLEY  
Reporter.

The Sundance 4-H Beef Club held its regular monthly meeting on April 4th in Sundance Hall at 8 p.m.

A discussion took place as to

## A.G.T. Milestone

Another important milestone in the rapid growth of Alberta Government Telephones was attained recently when the system recorded the installation of its 400,000th telephone. Newcomers to Calgary, Mr. and Mrs. John J. Kuran of 606 Willoburn Crescent S.E., and formerly of London, Ontario are the new subscribers. To mark the occasion, J.R. McDonald, (left) South District Operations Manager for A.G.T. presented the couple with a framed certificate together with installation and rent-free service for their main and Princess extension phones for a period of one year.

who would play the characters in the play we are giving at the 4-H Rally on April 16th in Duffield. We were reminded that we are catering for the O.O.R.P. banquet on April 27th and would be receiving more details about this at a later date.

Two talks were given. "Judging" by Heather Ferrier and "Why I joined the Beef Club" by Terry Bentley. We were pleased and honored to have with us District Agriculturist E. C. Lowe.

In my last months report, I omitted to mention that the

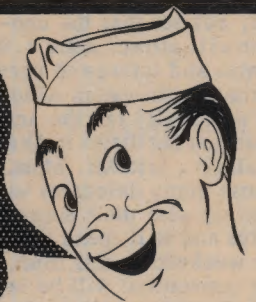

Everest Hereford Ranch had donated the 1st place trophy to the winner of the inter-club public speaking contest. Our thanks and my apology for the omission.

Our next regular meeting will be on May 2nd at 8 p.m. sharp in the Sundance Hall.

# Legislature Report

By Tony Cox

Amendments to the Highways Traffic Act will make it an offence to use tinted glass in automobile headlamps or to cover them with coloured material.

The Minister for Highways, Gordon Taylor, who introduced the bill said the amendments extend the time limit for temporary registration for out-of-the-province vehicles from 3 to 6 months. Other changes make it mandatory for holiday campers to install safety glass before January 1, 1969 and for motor scooter helmets to be approved by the Canadian Standards Association after January 15, 1969. The age of a licensed driver accompanying a learner is increased to 18.

Amendments to the Motor Vehicle Accident Claims Act clarifies that the fund was never established to underwrite insurance companies, the Workmen's Compensation Board or to insure trains, aircraft and utility companies; whose property is damaged by automobiles. The bill also states that power toboggans are not motor vehicles and people who have claims arising from their use may not collect from the fund.

Education Minister Raymond Reiersen says there will be no increase in school construction grants this year but lower than anticipated tenders by contractors could lead to a reassessment of construction programs for the future. He suggested the increased interest in school construction is the result of a drop in new industrial and commercial building starts.

But school boards will be looking for an extra \$5,000,000 to \$10,000,000 from property owners this year to meet rising education costs, he warned. Mr. Reiersen also predicted that supplementary requisitions would, on the average, increase from the present 8 1/4 mills to a maximum of 12 mills. Concerning teachers, he urged restraint in salary requests suggesting their sights are set too high.

The leader of the opposition, Mr. Loughheed levelled a charge at the government last week saying it is too complacent in its education policies and wastes its energies defending its record rather than planning for the future.

Health Minister, Dr. J.D. Ross would like to see the federal medicare scheme delayed a year to allow more time for discussion. He feels the delay would result in a plan, better tailored to the country's needs.

Amendments to the Alberta Health Plan include the introduction of a standard group contract to supplement the individual contracts, now operated by the AHP. The act also makes it possible for approved carriers to provide major medical insurance. It also creates the machinery for more extensive financial coverage outside of Alberta for those persons suddenly requiring medical treatment. Dr. Ross is to meet the Alberta Blue Cross and MSI to see if a common package can be worked out.

Agriculture Minister Mr. Strom is opposed to the provinces' participation in building more grain handling facilities at the west coast to assist in the export of prairie grain. This is the responsibility of private companies and port authorities, he said. Instead of adding unnecessary handling costs onto the grain farmer, the Department of Agriculture would rather assist in the development of a greater variety of crops.

Speaking outside the Legislature, Mr. Strom said one

firm is offering a contract for 10,000 acres of buckwheat with an expected minimum guarantee of \$2 a bushel.

As Chairman of the Human Resources Development Authority, Mr. Strom has indicated favourable consideration is being given to co-operative projects proposed by three Southern Alberta Indian bands. Representatives of the Blood, Peigan and Blackfoot reserves asked the government last month for \$600,000 for such diverse projects as learning management procedures, cattle operations, farming, store management and school vans. An economist and a livestock specialist are to assess their feasibility.

Because of the increasing number of violent crimes and the subsequent anguish to innocent victims, the Legislature

has agreed to consider new legislation that will provide compensation for these people.

And if you are wondering about the longest sitting of the Alberta Legislature, that came in 1910 when the House sat continuously from February 10 to May 26th. Last year, the session began February 9th and prorogued April 14th. This year, the Speech from the Throne was read February 15th and after 42 days and 20 nights the House is still going strong.

## Course Held

St. John's Ambulance first aid course has been held in Wildwood at the Greek Orthodox Church basement. This course took place from March 13th to April 8th. There were 25 people registered and they were a very interested group. The instructor was N.D. Asplet assisted by Cpl. Dave Rook of the RCMP, both of Evansburg. The class was examined by Anne Cosh, Arnold Joy and Liberty Joy, all of Edson.

## ENTWISTLE NEWS

MRS. E. OLIVER, Correspondent.

The family of Mrs. M. Messenger held Open House for her on the occasion of her 80th birthday. Many of her friends and neighbors came to wish her the best. It was held at her home on Saturday, April 6th. Many cards were also received and a bouquet of flowers from the O.O.R.P. of which she is a life member.

Mrs. Dale Hoople won the T.V. Bingo on Monday, April 8th. Good Luck Annabelle.

David Oliver won the bean guessing contest which was held at the Klondike Night at the Seba Beach High School on Saturday, April 6th.

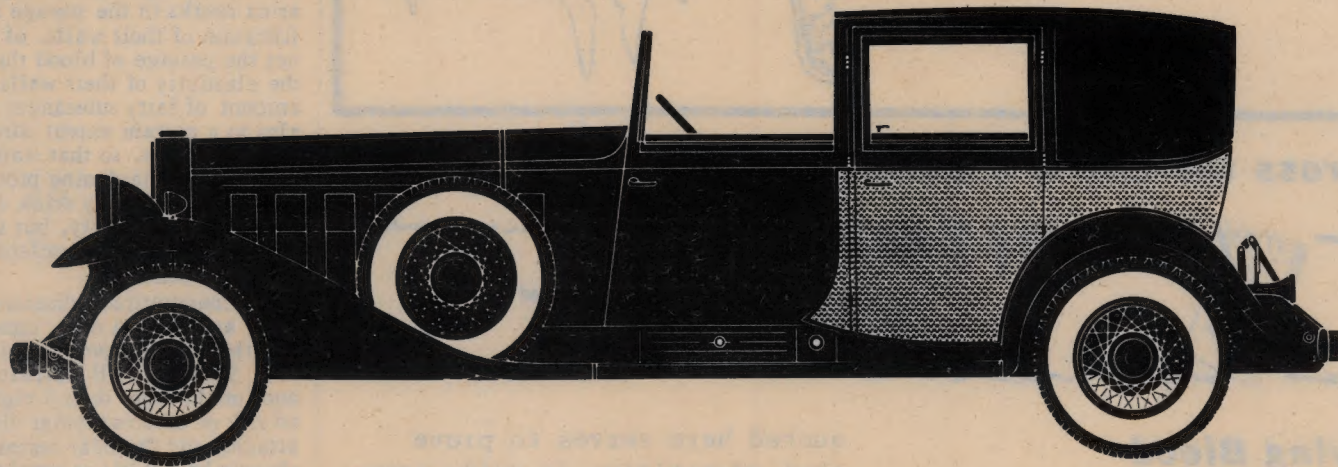

On April 7th Mr. Louie Tcherner had the misfortune of losing his home by fire. The M.D. Fire Truck was called at 9:20 a.m. on Sunday morning and six men answered the call. The house was too far gone to save anything but was

extinguished in twenty minutes. A passing motorist turned in the call. The lack of communication was the fault of not getting there sooner. Mr. Tcherner lives 2 1/2 miles south of Entwistle on highway No. 57.

On Saturday, April 6th about 11:30 a.m. the fire department was called to a fire across the tracks which burned quite a bit of land. Too many of these fires this time of year are due to lack of common sense. With the winds as such, one has to be very careful when lighting the garbage and special attention must be given at all times.

Mrs. Duane Bolianatz and Todd and Mrs. Elmer Kupsch and son visited with Mrs. Ed Nelson one day last week.

Mrs. Lorne Skare and family and Mr. and Mrs. Ralph Ostertag and Wendy spent the weekend at Whitecourt. They visited Lorne Skare and Mrs. Ostertag's mother, Mrs. Jay Sumner and Jay who are already at the Tower there.

## EDITORIAL COMMENT

### Giving Blood Different Now . . .

Giving blood is different from what it used to be because new plastic packs carry their own needle, provide a cushioned container for your blood and offer greater safety. Giving blood in plastic packs is a new experience. If you'd like to try it....call your local branch and arrange to be a blood donor at the clinic to be held in the Frank Maddock High School Auditorium on Monday, April 22nd from 2 to 4:30 p.m. and from 7 to 9 p.m.

### Returns from Advertising . . . .

The amount of money returned to a retail store which advertises in a newspaper is often treated as an intangible figure that cannot be pinpointed as having resulted directly from advertising run. Studies now indicate that there is a definite return, and it can be computed if the advertising is timely and sales oriented.

One department store in Toronto states that it is expected that each \$50 spent on advertising should return \$1,000 in sales. This particular store runs 30 to 40 pages of advertising each week in the Toronto area, and expects to sell \$25,000 to \$40,000 worth of merchandise for every page of advertising run.

Newspaper advertising properly planned, prepared and presented, is still the very best vehicle for retail out-of-the-store promotion. The example

quoted here serves to prove that advertising in daily newspapers is effective despite the competition for readership resulting from size of most metropolitan dailies. Retail advertising in weeklies is even more effective, and returns for the dollar spent on advertising are even greater because readership of weekly papers is more intense and longer lasting. And weekly newspapers are much easier to read than their bigger cousins, the dailies.

(Rimbey Record)

### Aint it The Truth . . .

The first touch of spring lightly turns editors thoughts to philosophizing. A careful look at the appliance and electronics industry prompted Bill Ince of Home Goods Retailing to ponder on Murphy's laws applying to this industry in the same way as to other things:

- \* If anything can go wrong, it will;
- \* Nothing is ever as simple as it seems;
- \* If you fool around with anything long enough, it will eventually break;
- \* If you try to please everybody, somebody isn't going to like it;
- \* It is a fundamental law of nature that nothing quite works out;
- \* It is easier to get into anything than to get out of it;
- \* If you can explain something so clearly no one can possibly misunderstand, somebody will;
- \* Whatever you want to do, you have to do something else first.

## Reaching and Maintaining Good Physical Health at Any Age

For many years the expectation of life in civilized countries has slowly been increasing, but this increase has been due mainly to improvements in surgical procedures and medical treatments--i.e. it does not reflect an improvement in general physical health. On the contrary, with a gradual removal from our environment of all physical challenge, the coming of an ever softer and easier life as our standard of living rises, and more and more segregation of the population into two groups--a small group of active participants in athletic events and a large group of passive spectators--the general standard of average health is in many ways deteriorating. Especially is this so in the area of cardiovascular (heart, blood vessel, lung) health, where the deadly effects of easy living are most evident.

The condition of ones heart, blood vessels, and lungs are dependant on a number of factors, the most important of which are:

1. Heredity. Cardiovascular and pulmonary degeneration takes place faster in certain families.

2. Age. "Hardening" of the arteries commences at birth, but is usually fairly slow until the mid twenties when it may begin to develop more rapidly.

3. Sex. Men tend to suffer from degeneration in these structures at an earlier age and more severely than women.

4. Diet. The typical nourishing "health giving" diet of the affluent society, rich in farm produce, -- milk, eggs, cheese, pork, butter, and starch and lavish in quantity is the worst possible combination, particularly in association with:

5. Lack of exercise; Failure to utilize the calories provided by the high starch, high animal fat diet of North America results in the storage inside the blood vessels, and infiltration of their walls, of fat-like substances, which obstruct the passage of blood through these vessels and destroy the elasticity of their walls. Adequate exercise reduces the amount of fatty substances unconsumed and so stored, and also to a certain extent stimulates the body to reverse the storing process, so that starvation and exercise may actually diminish the hardening process in the blood vessels. African Masai warriors may drink 4 quarts of milk and eat many pounds of meat daily, but they do not suffer from hardening of the arteries (atherosclerosis) because of their enormous energy expenditure.

6. Constitutional disease; e.g. diabetes, high blood pressure, and certain other conditions increase the risk to health and life from cardiovascular disease.

7. Smoking. All statistics show that for those who smoke and inhale more than 5 cigarettes daily there is an increased risk of cardiovascular disease (e.g., strokes and heart attacks) and the near certainty of ultimately developing chronic bronchitis or emphysema - apart from other diseases related to cigarette inhaling. Recent studies in England have shown that an increasing number of school children are developing chronic bronchitis by the time they leave school as a result of smoking from the age of 11 or 12.

8. Obesity. In almost all cases obesity is due to a combination in varying degrees of factors 1, 4 and 5 above. In practice the situation in Canada is such that from the point of view of maximum possible cardiovascular health, the 'average' weight for any given height on the popular weight-height chart is 5 - 10% overweight for most individuals. Insurance companies know this and regard 5 - 10% under the average as the weight least likely to be associated with constitutional disease.

Obviously, of the factors noted above, numbers 4, 5, 7 and 8 are ones about which we can do something, if we want to. Some of us in Drayton Valley are trying to carry out the 30 point week plan of exercising described in the March Reader's Digest 'How to Feel Fit at any Age' by Dr. Kenneth Cooper. There are now at least 15 people, with a 45 year age spread, who are running regularly, either morning or evening, in town. Starting this programme is very easy, especially if done with someone else whose physical build and capabilities are close to one's own. It requires no athletic ability, no expensive apparatus, and is very much less dangerous than eating and sitting one's way to any early grave, or more likely, to a middle and old age of vague ill health.

Perhaps Drayton Valley, already a leader in so many fields (oil, birth rate, canoeing, lumber, farming and other activities demanding enterprise and determination) may lead the rest of Canada in starting a trend towards a more positive attitude about physical health. Or, to put it another way, maybe we need a Canadian Physical Health Association as well as one for Mental Health.

-- Dr. H.L. Maclure

## THE HOME TEAM

"He's chicken when it comes to checking!"

## Hog Producers Favor Marketing Board

A majority of hog producers who replied to a mail-in vote on proposed changes to hog marketing in Alberta voted to favor a marketing board, D.H. McCallum, chairman of the provincial Agricultural Products Marketing Council, said last week.

A total of 59.3 per cent of usable ballots were for a Hog Marketing Board with a single selling agency. A total of 19.4 per cent favored the Hog Merchandising and Development Authority which is a board using a number of selling agencies such as the existing livestock commission firms.

A total of 14.4 per cent of those who voted indicated they wanted the present hog marketing system to remain. Finally 6.9 per cent favored a commission which would allow producers to opt-out and sell directly to the hog packers.

A total of 28,544 ballots were distributed to hog producers throughout Alberta, Mr. McCallum said. A total of 5,466 or 19.1 per cent of ballots sent out were returned to the Agricultural Products Marketing Council post marked not later than March 23, the cut-off date.

Farmers on the ballot mailing list were selected as hog producers by lists provided by the Dominion Bureau of Statistics. These farmers were sent a summary of the various marketing alternatives and provided with a ballot.

In addition to providing this information, the Alberta marketing council held a series of 11 meetings at major marketing centres throughout the provinces. These meetings were attended by about 2,400 hog producers who were provided with answers to their many questions.

A total of 387 ballots could not be used because the intention of the voter was not clear or the ballot was unsigned. In addition, a number of ballots were received postmarked after March 23, the final deadline for the opinion poll.

The council also collected information as to the size of operations from each of the producers voting in the poll.

Those favoring a marketing board marketed 261,217 hogs or 44.9 per cent of the total reported with an average marketing of 100 hogs.

Those favoring a Merchandising and Development Authority marketed 171,857 or 29.6 per cent of the total hogs marketed by farmers answering the poll, averaging 199 hogs sold.

Those favoring the present system of hog marketing sold

93,537 or 16.1 per cent of the total with an average of 152.

Those favoring a commission marketed 54,785 hogs or 9.4 per cent of the total with an average of 176 head.

From these calculations, it was determined that 37.2 per cent of the hogs marketed in the past 12 months came from 19 per cent of the producers. This indicates that the smaller producer did not give his opinion to the same extent in this poll as the larger producer, Mr. McCallum said.

The Marketing Council released this information at a March 29 meeting of its steering committee which was set up December 18, 1967.

## MAGNOLIA NEWS

MRS. G.P. MacDOUGALL  
Correspondent.

Vera and Geof Hampton held a whist party at their home Saturday evening April 6th. Betty and Dean Strangway won first, Alma Roth and Ray Storms second; Della Storms and Al Roth won consolation; Della and Ray Storms won door prizes.

Ruby and John Brown were at Hardisty over the weekend to visit Ruby's sister, Elsie Dewalde. Celia and Cliff MacDougall and Wendy of Hinton were in the district over the weekend visiting relatives.

Congratulations to Isa and Dave Waddell celebrating their 36th wedding anniversary April 20th.

Mr. Dave Churchill is visiting his son, Dave and his family in Barrhead for a few days.

Isa and Dave Waddell moved into their modern new cottage the first part of this month. Betty and Dean Strangway and family motored to Victoria, B.C. for the Easter holidays.

The Magnolia Ladies Club held their monthly meeting Wednesday afternoon, April 10th at the home of Stella MacDougall with Sofie Chechotko as co-hostess. There were sixteen members present. For roll call the ladies brought articles for the Victoria Day Picnic Bazaar.

Plans were made for the picnic and the three bridal showers for the young ladies who are to be married in June.

The hostesses served lunch at the conclusion of the meeting. Hilda Christensen won the tea prize.

Rich Aunt: "I'm sorry you don't like your gift, but I asked you whether you preferred a large or small check."  
Poor Nephew: "Yes, but at the time I didn't know you were talking about neckties."

## Directors Plan Summer Fair

The Wildwood and District Agricultural Society held its regular directors' meeting at the home of Mr. and Mrs. Allan Ditner of Wildwood on the 10th. There was a very good turn out of the directors and also attending the meeting were Mr. Grant Gilland, District Agriculturist and Mr. Dick Low, Agricultural Field Man.

Main topic of the meeting was the new field crops competition. Plans and rules for judging and appraising the re-

sults were discussed. Shortly it is hoped that every farmer in the area will be informed by this competition set up to promote agriculture in the surrounding districts.

Other matters discussed were that the Society should again have Agricultural Queen candidates this year.

The next meeting is to be held at the home of Mr. and Mrs. Ron McColman at Wildwood and will be on the second Wednesday in May.

EQUALIZATION  
PLAN

Our PAYMENT EQUALIZATION PLAN provides a convenient method of paying your regular monthly gas bill in equal installments during the year. Under this plan, your gas bill payments never vary. Your annual gas consumption is calculated, the total cost divided by 12, and you pay this amount each month — building up a reserve in summer for the higher bills of winter. Actual consumption is of course recorded monthly, and noted on your bill — and adjustment to actual consumption is made every 12 months. It is available to all customers on request. May is the month such regular payments normally are started — so we invite interested customers to contact us now.

## THE Homemakers

Marlene Jubenvill  
Dist. Home Economist

10426-81 Ave.  
Edmonton  
Alberta

You've seen plenty written about door-to-door salesman but people still make some good "boobs".

There are good salesmen along with bad and sometimes it's hard to tell the good ones.

The Better Business Bureau has set up these guidelines:

Bonafide direct sellers (or door-to-door salesmen) will:

1. Carry some form of identification;
2. Have the manufacturer's literature on which the manufacturer's name will be printed or stamped.
3. Have samples of merchandise on which the manufacturer's name will be printed or stamped.
4. Never demand payment in full for merchandise until it is delivered to your home nor will they accept money without issuing a receipt.
5. Never high pressure you to buy things which you either don't want or would be useless to you.
6. Accept "NO" courteously.
7. Will likely call again.

Most direct sales people are independent retailers. As a result of being granted a dealership, affiliation with the companies is usually maintained by continuing sales, training programs and dealer sales promotion contest.

There are many companies and sales organizations who distribute their products through direct sellers. For instance, the Direct Sellers Association represents a group of Canadian manufacturers who market their products by means of direct to the home selling.

These companies feel their products are quality items which deserve your personal attention and merit demonstration in your home. The foremost advantage of this marketing method from your point of view is, that you see immediately whether or not there is a need for and a place for such a product in your home.

Since direct sellers are independent, you, their customers, are one of the prime sources of information concerning any abuses or malpractices of direct sales dealerships.

Your constructive criticism is invited by the companies and dealers alike. It will serve to protect the reputation of the ethical home-to-home salespeople who are endeavouring to provide you with a convenient, shop-at-home service.

Constructive criticism or complaints should be made in writing and sent to the company concerned, to your nearest Better Business Bureau, or to the Direct Sellers Association, 67 Yonge Street, Suite 1401, Toronto, 1, Ontario.

## FIRE IS A KILLER

## New Stamp Commemorates Voyage of the Nonsuch

A four colour Canada Post Office 5¢ stamp to be released on June 5th, 1968, will commemorate the 300th anniversary of a perilous four month voyage of discovery by the Nonsuch into Canada's northern waters, Postmaster General,

Jean-Pierre Cote announced recently. Success of the Nonsuch venture is credited by historians with the opening of Canada's West through the fur trade.

The new stamp, horizontal in format and having dimensions of 40 x 24 mm., was designed by the British American Bank Note Company Limited, Ottawa, whose facilities will be used to print 24 million of the new issue by a combination of the steel engraving and photogravure processes. Mucilage employed for this issue is the virtually invisible material used on two previous occasions for Canada Post Office stamps.

Customary First Day Cover Service will be provided by the Postmaster, Ottawa 2, Ont.

## MOON LAKE NEWS

By Mrs. Blanche Jensen

First I would like to make a correction from my last Moon Lake news. It read bingo April 25th, Jackpot \$210. The \$210 jackpot will be played for on May 2nd. April 25th is also a bingo in the hall but with a small jackpot on share the wealth. Hope to see you all then.

ions of 40 x 24 mm., was designed by the British American Bank Note Company Limited, Ottawa, whose facilities will be used to print 24 million of the new issue by a combination of the steel engraving and photogravure processes. Mucilage employed for this issue is the virtually invisible material used on two previous occasions for Canada Post Office stamps.

Customary First Day Cover Service will be provided by the Postmaster, Ottawa 2, Ont.

Little Donna Urkiewich is home for the Easter holidays. She is well and enjoying school at Red Deer very much.

Mrs. Jan Jones has recently returned from a holiday in Germany, and is now a visitor at the home of her sister-in-law, Mrs. W.T. Cherrington.

Mr. and Mrs. Gary Mick spent the Easter holidays with their father Mr. Fred Parifenuk.

Mr. and Mrs. Fred Cherrington left on April 11th for Williams Lake, B.C. where they will visit their daughter, son-in-law and family for the Easter holidays.

On April 9th Mr. and Mrs. Harry Wall and daughter Daphne motored to Sangudo to visit Mr. and Mrs. Leo Burki also Dan and Debbie Burki.

## FROM THE BIG COUNTRY... Alberta

Once upon a time, it seemed, the first gleam of summer was a signal for Alberta's boat-owners to migrate like lemmings to the lakes of British Columbia. But times have changed. Recent oil developments in the northeast of our province—besides boosting the economy—have spread the long-hidden secrets of Alberta's marvellous lakelands, the huge tracery of blue waterways around Lac la Biche and St. Paul which offer a new destination for the water-loving vacationer.

Fishermen, of course, have known about the lakelands for years. Whatever visions the statistics 41-28-36 might conjure up for us, to the hip-wader set, they have always signified three of the fast, easy highways to this aquatic utopia. East from Edmonton on Highway 28, north from Camrose and Lloydminster on Highways 36 and 41, awaits an angler's paradise. From the North Saskatchewan River in the south, extending northwards through the region flanked by Cold Lake in the east and Lac la Biche in the west lie upwards of thirty major lakes, teeming with angling fish.

All of these lakes have pike, most have perch, and some have wall-eye or pickerel. In addition, the northern waters offer lake trout, whitefish and tullibee, all of fine size and unsurpassed flavour. Most of the major lakes have sandy beaches and boating facilities are available at Amisk, Beaver, Fork, Garner, Laurier, Manatokan, Mann, Moore, Moose, Muriel, Skeleton and Whitney Lakes—all of which are within 180 miles of Edmonton.

The expansion of farming in the area and the increase in tourist traffic has brought about considerable extension of the road system, with the result that rich fishing grounds have become readily accessible. Touchwood Lake is a good example. This preserve of the Great Northern Pike—where a 12-pounder merits only a casual glance—is now passed by a good all weather road. Other haunts of the Northern Pike are less easily reached. The long,

rough trails to Seibert and Pinehurst Lakes, for instance, are, at best, only usable by four-wheel drive or bush vehicles.

A weekend in the Lakelands is becoming an increasingly popular pursuit for campers and trailer buffs. Garner Lake, just 112 miles from the capital, and Franchere Lake, also on Highway 28, are two favourite spots for swimming and boating.

Besides water sports, the Lakelands offer many other attractions. The scenery invariably keeps the camera-bug short of film. Supplied with an abundance of moisture, trees and vegetation are surprisingly dense and verdant, and always, this greenery is enhanced by broad sparkling waters.

And, too, the area is rich in history, the Beaver and North Saskatchewan Rivers having been the principal routes of the early traders and pioneers.

Tracing the journeys of Pond, David Thompson and Peter Fidler is yet another source of enjoyment in Alberta's enjoyable Lakelands.

Presented as a public service by

# Labatt's ALBERTA BREWERY LIMITED

We are always glad to include pertinent club and community news in this series when space permits. Send copy to P.O. Box 4509, Edmonton.

Classification of the sport-fishing capabilities of Alberta waters, particularly in the northern areas, is expected to lead to improved sport for fisherman.

## Alberta Waters Surveyed For Fishing Capabilities

An accelerated program to classify the sport-fishing capabilities of Alberta waters, particularly those of the more remote northern half of the province, has been undertaken by the Fish and Wildlife Division of the Alberta Department of Lands and Forests.

An agreement to conduct such a research study as part of the Canada Land Inventory under the Agricultural and Rural Development Act was concluded in 1967, with the cost to be met by the Federal Government.

The survey for the classification of all waters will include physical and chemical features of lakes and streams, depth and area of lakes, the amount of dissolved nutrients necessary to support microscopic life, temperature and oxygen content of the water, and sampling of fish species present.

A number of benefits are expected to result from the classification. In addition to providing information on sport fishing capabilities for the Canadian Land Inventory, it will provide officials with an index of all Alberta waters, important to visiting tourists and local vacationers alike.

Information from the survey will allow the needs of fishermen to be better estimated, and the dollar income from sport fishing to be more closely gauged.

Enthusiasm for the progressive opening-up of more fishing waters in northern Alberta is expressed by Fish and Wildlife officials. Superb fishing is available at many lakes, virgin territory because of the

lack of public access roads. A lucrative tourist business eventually may grow in the area, probably led by the opening of private fishing and hunting resorts.

## RAMONA

MRS. JEAN STEWART  
Correspondent.

Mr. Darragh was home from hospital this weekend but has to go back April 17th for treatments. Best wishes for a speedy recovery Mr. Darragh.

Mr. and Mrs. Jim Darragh were up from Calgary for the weekend to visit Jim's parents and brother Lee and family.

Little Kenny Darragh celebrated his first birthday on April 11th. Happy birthday Kenny.

Linda Blatkewietz won ten dollars at the Ramona Bingo last Tuesday.

Congratulations to Mrs. Rose Melnyk who won the fifty dollar prize Ramona was raffling. Mrs. Melnyk is Helen Rybak's sister and Helen had sold the lucky ticket.

Cecil Keely was home from Slave Lake for the Easter weekend. About ten o'clock Thursday night there were eight happy little Keelys. I thought Santa Claus was coming.

I hope everyone had a happy Easter and I wish all the school children a happy holiday this week.

Life: Just one fool thing after another.  
Love: Just two fool things after each other.

Massey Ferguson 14 foot Deep Tillage, on rubber, hyd. lift.  
Massey Ferguson 14 foot Carrier Disc, on rubber, hyd. lift, as new.  
International 10 foot Deep Tillage, on rubber, hyd. lift.  
Graham Holm 14 foot Diesel Plow, complete with rod weeder attachment.  
Graham Holm 12 foot Chisel Plow, on rubber, hyd. lift.  
International 14 foot Duplex Stiff Tooth Cultivator, on steel.  
Cockshutt 10 foot Disc, Tandem.  
Massey Ferguson 10 foot 2 row Cultivator, 3 point hitch.  
John Deere 8 foot Tandem Disc.  
Massey Harris 8 foot Tandem Disc.  
Massey Harris 10 foot Stiff Tooth Cultivator.  
New Ajax Hydraulic Harrow Draw Bar for 15 sections.  
Massey Harris 10 foot Tiller, on rubber, hyd. lift.  
9 foot Mills Cable Weeder.  
6 foot John Deere Tiller, on rubber, complete with seeder attachment.  
8 foot Cockshutt Tiller, on rubber and steel.  
Massey Harris 30 ft. Rolling Harrow Draw Bar and 6-5 foot flexible harrows.  
CO-OP 1 section Roll Harrow, 10 foot with Harrow Draw Bar.  
4x14 International Plow, on rubber, with hydraulic lift.  
3x14 International Plow, on steel, with power lift.  
Massey Ferguson 2x14 Plow with 3 point hitch.  
2 Cockshutt 12 foot Rod Weeder on rubber.  
4 sections of Lever Harrows.  
C.C.I.L. 10 foot Rod Weeder attachment for Cultivator.

### Seed Drills

International 12 foot D.D. 24 run Seed Drill.  
John Deere 12 foot Seed Drill D.D., on rubber, with fertilizer attachment.  
Massey Harris 10 foot Seed Drill, 20 run, D.D. Model 308.  
M.M. 10 foot Press Drill, 20 run D.D.  
Seeder Box for M.H. 8 foot Tiller.  
John Deere 20 run D.D. Seed Drill, 10 foot, in top condition.  
1964 International No. 10, on rubber.  
20 run Double Disc, 10 foot, complete with fertilizer and grass seeder.

### Haying Equipment

New McKee Harvester, complete with 30 foot Wagon.  
McKee Automatic Bale Stoker, 15 bale size.  
New Holland Model 66 Baler, PTO drive. Field ready.  
New Holland Model 68 Baler, engine drive, reconditioned unit.  
Massey Ferguson No. 10 Baler, in very good condition, PTO drive.  
Oliver No. 50 Baler, PTO drive, in very good condition; has done very little work.  
Massey Harris Baler, Model No. 1, motor drive, in very good condition.  
Case Baler Model 200 with PTO drive, in good condition.  
Old M.F. 6 foot Power Mower with 3 point hitch.  
New 24 foot Bale Elevator.

### Loaders and Sprayers

Farm Hand hydraulic Front End Loader, complete with hay sweep and manure bucket.  
Homdraulic hydraulic Front End Loader.  
Long Manure Spreader, on rubber, 150 bushel size.  
Massey Ferguson No. 18 Manure Spreader, in very good condition.  
Dual Power Box, Model 200, in very good condition.  
2-wheeled Trailer with cable push off box, with good 18x9 box.  
Cockshutt No. 4 Manure Spreader, on rubber.

### Truck Boxes

2 - 12 foot Truck Grain Boxes, complete with stock racks.  
1 - 9x7 foot Truck Grain Box, complete with stock racks.  
Truck Box for 1-ton Truck.  
Grain Tank.

### Feed Equipment

Snowco Auger Feed Wagon, 125 bus. size, with PTO drive.  
Cockshutt Hammermill, 12", complete with screens, pipe and mixer.  
Ferguson Oat Huller, complete with pipe.  
Beatty 12" Grain Crusher.  
Macloed Feed Cutter, on rubber, long feeder.  
Gehl 10" Hammermill, complete with pipe and mixer.  
O.K. Hammermill, 14", complete with pipe and mixer.  
Fairbank 14" Hammermill.

### Augers and Sprayers

2 Robin Grain Auger, 7", on rubber, 40 foot.  
Golden Arrow Sprayer with 33 foot booms, 200 gallon aluminum tank, trailer type.

Mr. and Mrs. Gillis Johanneson

## Visitors Celebrate Anniversary Here

At a family gathering in Drayton Valley during the Easter weekend, Mr. and Mrs. Gillis Johanneson of White Rock, B.C., were honored on the occasion of their 50th Wedding Anniversary.

Present for the occasion were their three children and ten of their fourteen grandchildren. Members of the family present were Mr. and Mrs. George F. Johanneson of Winnipegosis, Mr. and Mrs. Taylor (Rose) of

Winnipeg and Mr. and Mrs. W. G. Johanneson of Drayton Valley.

Married in London, England during the First World War, the couple came to Canada in 1919 and settled in Winnipegosis, Manitoba after a short stay in the City of Winnipeg. Mr. Johanneson was a steam engineer, Master of Tugboats and Dredgemaster in that order and spent most of his working years in these vocations on and about Lake Winnipegosis.

Last summer the couple moved to White Rock having finally decided the winters were too severe in Manitoba for them.

The farmer was explaining to a city woman what a menace insects are to farm products—how corn borers destroy corn, and how potato bugs ruin potato crops. The city cutie listened attentively, then exclaimed: "And the poor dairy people—how the butterflies must bother them."

## Speaking Contest At Sundance

The Sundance 4-H Clubs were pleased and honored to host the Stony Plain West End semi-final public speaking contest in the Sundance Hall on March 29th. It was very encouraging and a great pleasure to welcome so many parents and friends of the 4-H members.

Judges were: Mr. Bienert from the Department of Youth; Rev. V. Cable, from Onoway; Mr. P. Jeans, from Evansburg; Mr. Roy Bamber was the time-keeper; and Mr. Jim Ferrier was our chairman.

Six clubs entered. These were: Entwistle Clothing Club; Lobstick Beef Club; Pembina F.C. Club; Sundance Garden Club; Sundance Beef club; and

the White Rose Beef Club. Nine contestants took part.

The contestants chose many varied and interesting subjects. In his summary Mr. Jeans remarked that he was very surprised and pleased at the work and effort the members had put into their speeches and complimented them all for doing so well.

Five members placed and these five will go on to the Stony Plain District finals to be held on the 18th of April at Duffield School auditorium. These members were: 1st place Terry Bentley, Sundance Garden Club. Runners up were (in alphabetical order), Susan Bamber, Sundance Beef Club; Heather Ferrier, Sundance Beef Club; Dorcas Hiltz, Sundance Garden Club; Shirley Hutchinson, Pembina F.C. Club.

We would like to thank the D-R Ranch for donating the 1st place trophy and to Mr. and Mrs. Brown for donating beautiful photo albums for the runners up. We would also like to extend our appreciation to the Sundance Community Club for providing the lunch for all of us.

## Funeral Service For Mrs. Hill

Funeral services were held at Drayton Valley United Church on Monday of this week for Mrs. Emma Hill, a resident of the Violet Grove district for over thirty years. Mrs. Hill, apparently in good health, passed away in her sleep at her daughter's home in Camrose.

Mrs. Hill is survived by two sons, Freeman and Edward, one daughter, Mary (Mrs. Archie Tone), ten grandchildren and great grandchildren.

Mrs. Hill made many friends during the years she lived here and will be sadly missed.

Sincere sympathy is extended to all members of her family.

## Tomahawk Club Meets

By VALERIE WARD  
Reporter

The 9th meeting of the Tomahawk Clothing Club was held at the home of Bernice Martin on March 11th. The meeting was brought to order at 8:30 p.m. with Valerie Ward leading the pledge. Three of our members were absent.

We decided to meet at Mr. Wickwares at 6:30 a.m. in order to go bowling in Edmonton. A demonstration was given by Terry and Susan Pezzot on putting in a zipper. The club and myself would like to thank all the parents who attended on parents night.

A very delicious lunch was served by hostess Bernice Martin and co-hostess Valerie Ward and helpers Judy Richter and Karen Wickware.

## A MATTER OF TIME

Ted Andersen (Lee Patterson) receives a final briefing by doctors at Princess Margaret Hospital, Toronto, before undergoing radiation treatment for cancer. The markings on the patient's chest indicate areas of healthy tissue that the radio-therapist must avoid damaging. This scene is from A Matter of Time, a one-hour dramatized documentary produced by the Canadian Broadcasting Corporation for Intertel to be seen Wednesday, April 17 on CBC-TV.

# Early Spring Care of Native Range Advised

Alberta ranchers are strongly advised to resist the temptation brought about by our extremely early spring, to turn their cattle on to native range too early.

O.G. Bratvold, head of the Field Crops Branch of the provincial Plant Industry Division, explains that when native range is given a good start in the spring, it will provide good cattle gains in mid-summer. If, on the other hand, it is grazed too early, the grass growth will be retarded and its ability to carry the cattle through the summer will be severely strained. Native range is not noted for early spring growth and usually does not come into its own until about mid-June, and even later in some areas.

In view of the fact that feed on a large percentage of range land is likely to be short by mid-summer, unless we have an exceptionally moist year, Mr. Bratvold suggests that ranchers seriously consider planting a portion of their grazing land to cultivated grasses. This concept of complimentary grazing has been tested with notable success at both the Swift Current and Manyberries research stations. Beef production in terms of pounds produced per acre was almost doubled.

Russian wild rye and created wheatgrass do very well on the short grass plains, while such grasses as pubescent wheatgrass can have real value in the foothills, where moisture is more plentiful. The important thing to remember when

choosing a grass, says Mr. Bratvold, is to choose one that has good spring vigor, that will give you early grazing, and that will support your livestock until the native range is ready for grazing sometime in June.

## BURTONSVILLE NEWS

A little guest arrived on April 3rd to bless the home of Audrey and Gordon Hansen. The little girl is the first granddaughter for the parents of both Audrey and Gordon. Grandparents are Mr. and Mrs. Bill Quigg of Highvale and Mr. and Mrs. Eckmond Hansen of

Burtonsville. Congratulations Audrey and Gordon.

Rev. D.H. Russell, Conference Superintendent, Red Deer held service in the church here Wednesday evening, April 10th. Rev. and Mrs. J.D. Kennedy arrived home after seven weeks absence. We welcome them back.

Little Keith Greanya gave his mother a fright when he possibly heard the graderman

Tim Bailey thawing out a culvert. He followed the road for nearly a quarter of a mile. Jim took him home to a frantic mother.

The school children are looking forward to the Easter Holidays and hope for sunny days that they may enjoy the out-of-doors.

Man is the only animal that can be skinned more than once

# CHRYSLER

**best power for any fishing boat afloat!**

Meet the 9.9, one of the all new fishing engines by Chrysler. Most powerful 'under 10' on the market. Gets you out there where the big ones are. Our new 9.9 has pushed our 14' test boat and driver 23 mph (has even pulled a full grown skier!), yet she'll troll all day with hardly a murmur. Shallows are no problem, either. Chrysler's exclusive Depth Minder drive lets you operate in a mere 6 inches of water... and the spline-drive prop won't pick up weeds, ends shear pin changing forever. And just look at that new low-profile design. It's designed to make your carrying, stowing and operation that much easier... lets you fish across the stern, too. When it comes to fishing outboards, Chrysler has the big edge. From the all new 4.4, through the 6.6 and 9.9 to a completely new 20, they're all backed by Chrysler engineering excellence and the famous Chrysler warranty.

## Farm Building Plan Service

How many farmers know that they can get complete working drawings of all types of farm buildings and accessory structures free of charge in all provinces? Building instructions are given in French and English.

The Canadian Farm Building Plan Service is a unique program administered by a sub-committee of the National Committee on Agricultural Engineering and supported by the federal and provincial departments of agriculture. CFBPS staff includes agricultural engineers from these departments and from agricultural colleges across Canada.

The purpose of the service is to provide plans for modern, economical and safe structures based on advice from the top men in Canada in this field. Revision of the plans is undertaken whenever it is necessary to bring them into line with new developments.

A series of eight illustrated catalogues covering housing and equipment plans is available for Dairy Cattle, Beef Cattle, Swine, Sheep and Poultry enterprises and for Fruit and Vegetable Storages, Grain Storages, and Special Structures. Each plan has an order number which you should quote when requesting it from your Agricultural Representative or provincial department of agriculture.

The catalogue also may be obtained from them and also from the Information Division, Canada Department of Agriculture in Ottawa.

Included in the working drawings are perspective views of the structure, plan views, elevation views, bills of materials, and detailed drawings of components. One of the most popular component plans has been the timbertruss rafters which range in span from 24 to 60 feet.

All buildings in the Plan Service catalogues are designed according to Farm Building Standards, a supplement publication of the National Building Code of Canada. This ensures that the construction is able to withstand snow loads, wind forces and other hazards. Complete wiring diagrams for proper electric services are provided.

Plans are revised as necessary to keep them up to date. Since it is unlikely that all parts of Canada require identical buildings for housing livestock, the Plan Service offers a great variety of roof shapes, types of siding, interior layout and orientation of the buildings. Because of the different structural materials, insulation and ventilation, you should consult an agricultural engineer through your Agricultural Representative to guarantee that specifications are met, or adapted in accordance with good construction practice, before translating the plans into action.

## WARBURG NEWS

BEN GROHN  
Correspondent.

Mr. Florian Petruck had an operation in hospital recently. Mr. Ed Grant is home from the hospital.

The annual meeting of the Warburg C. W. L. was held on April 3rd at the home of Mrs. Clara Gidosh with the director, Father Blanche, and ten league members present. Election of officers took place. The results are as follows. President Frieda Fritz; First Vice-President, Ivy Kurley; Second Vice-President, Phyllis Anderson; Third Vice-President, Mickey Buchan; Secretary-Treasurer is Veronica Hakstal. The May meeting will be at the home of Mrs. W. Lemer-meyer.

Some of the Warburg curlers entered the Last Chance Curling Bonspiel in the city. Jerry Jones played with three fellows from Edmonton--the Bellan Boys and Stan Pistonovich, Wilfred Schnick, Gary Broad-bent and Leisan Ruff made up the Joe Hashawski rink. The fellows didn't bring any prizes home.

Melanie Schnick was in the Breton Hospital for five days.

Bowling, April 5th and 6th; Thunder Balls over Little Buddies; Warbugs over Busy B's; Chug-a-lugs over Deadbeats; Falcons over Polka Dots; Afterthoughts over Spartans; Hot Rods over King Pins. Ladies high single was 250 bowled by Shirley Ruff; Men's high was 267 by Ben Grohn.

Bowling for April 19th and 20th, played off early, is as follows: Blue Jays over Odd Balls; King Pins over Little Buddies; Warbugs over Lucky Strikes; Rolling Stones over Alley Cats; Spartans over Falcons; Busy B's over Dare Devils. Ladies high, Dawn Weiss 229; Men's high, Ben Weiss 251.

Final standings are (out of a possible 80 points). Lucky Strikes 80, King Pins 57, Spartans 49, Afterthoughts 46, Warbugs and Chug-a-lugs 49; Afterthoughts 46; Warbugs and Chug-a-lugs 44, Alley Cats and Blue Jays 43, Odd Balls 42; Dare Devils 39; Rolling Stones 38; Polka Dots, Thunder Balls and Busy B's 36; Falcons and Hot Rods 29; and Dead Beats 26.

Playoffs are the 26th and 27th of April. We suggest that you enter these by the 22nd of April with Benny Weiss.

A salesgirl was describing a new four-piece outfit a model was wearing: "If you remove the bodice you have a playsuit, if you remove the skirt, you have a sun suit. If you remove anything else you have a lawsuit."

"Don't be afraid of my dog," said the housewife to the youth who delivered groceries. "You know the old proverb. 'A barking dog never bites.'" "Yes," returned the boy. "You know the proverb. I know the proverb. But does the dog know the proverb?"

### Study Flora of Queen Charlotte Islands

Dr. Roy L. Taylor (right) and Gerald A. Mulligan, of the CDA's Plant Research Institute at Ottawa, look over specimens gathered in a study of the flora of the Queen Charlotte Islands. This area was one of the very few in Canada to escape being covered by ice during the glacial period thousands of years ago.

### BERRYMOOR NEWS

MRS. D. MARTIN  
Correspondent.

We are pleased to see that Mrs. Doris Laughlin is home again after spending a few days in hospital.

Mrs. Ruth Berry has returned to our community after spending the winter in Drayton Valley. Welcome back Ruth.

A bridal shower for Miss Dayna Cropley was held at the home of Mrs. Gordon Davidson on the evening of April 3rd. Quite a number of folks attended and many lovely gifts were received.

Both Mr. and Mrs. George Van Ember have been quite lucky at bingos held recently.

Emily Joneson is home on a months leave from the navy. She visited at the home of Mr. and Mrs. D. Martin and was one of the bridal attendants at their daughters wedding.

Congratulations to Mr. and Mrs. Jerry Young on the birth of a daughter at the Drayton Valley Hospital.

Mr. R. Thatcher has gone to Calgary to visit relatives and friends.

Max Schwartz got his house moved a few days ago.

Miss Mae Martin of Berrymoor and Mr. Gordon Tryon of Alsike were married on Saturday, April 6th. A reception and dance were held at the Lindale Hall following the ceremony. Congratulations and best wishes to this young couple.

A couple of old timers were recent visitors to our community. It was a real pleasure to see Les Johnston and Bruce Colby once again.

Mrs. M. Whittaker has also had a house moved recently.

Mr. and Mrs. Donald Martin and Mr. and Mrs. George Martin left on Saturday morning for a trip to Williams Lake and Prince George to visit relatives and friends.

"Have a good night?" the hostess asked sweetly of the house guest who had slept on a couch.

"Fairly good," he answered sleepily. "I got up from time to time and rested."

### KEEPPHILLS NEWS

Mr. W. Schwalbe was in the Drayton Valley Hospital recently to have his teeth extracted.

Arleen Antipowich, daughter of Mr. and Mrs. W. Lauder is in the Royal Alexandra Hospital in Edmonton where she underwent surgery last week.

Those celebrating birthdays in April are Reg Porter, Sharon Moger, Mary LeGrand and Flora Porter.

Mr. and Mrs. Art Bryant celebrated a wedding anniversary April 6th.

The Bacon's from Highvale and Gordon Raymond and family from Edmonton were dinner guests at the Raymond home on Good Friday.

Ken and Viola Porter left with their family on Thursday for a holiday trip into B.C. for a few days.

Linda Porter, daughter of Mr. and Mrs. Walter Porter was one of the graduating nurses at the University on April 8th.

Mrs. Margret MacDonald of Edmonton is visiting her sister-in-law, Nora Dornbosky here for a few days.

### Feeders Co-operating In Statistical Survey

Approximately one-quarter  
of Alberta's cattle feeders are  
presently involved in testing a  
new and improved method of  
obtaining cattle-on-feed esti-  
mates through a survey being  
conducted by the Dominion  
Bureau of Statistics with the  
assistance of the Economics  
Division, Alberta Department  
of Agriculture.

Pilot surveys on this subject,  
conducted since 1964 in Ont-  
ario and the prairie provinces,  
have not proved satisfactory.  
The present survey is the result  
of requests received from live-  
stock associations and other  
farm groups for more accurate  
information.

Alberta was chosen as the  
testing ground and if success-  
ful, the method will be adopt-

ed by other provinces across  
Canada.

The purpose of the survey is  
to determine an efficient and  
feasible method of providing  
Alberta feeder cattle suppliers,  
feedlot operators and others in-  
volved in marketing cattle,  
with information that will  
allow them to take advantage  
of optimum marketing condi-  
tions.

The sampling procedure  
used classified cattle feeding  
operation into nine categories  
on the basis of size. These  
nine categories were further  
divided into 144 sub-groups.  
Thirty-six names were chosen  
at random for each sub-group,  
making a total of 5, '84 feeders  
to whom questionnaires were  
mailed.

## D. V. Highlights

BY MRS. EDITH DEBY

Mrs. Isobel Hoyland spent part of her Easter holiday with her brother and his family at Viking.

Among the young people who were home for the Easter weekend we saw Lyn Burrows, Paul, Audrey and Andrew Mac-lure.

Bill Urchyshyn and Duane Rowles, lucky chaps, are away for a trip to Mexico.

Mr. and Mrs. Vernon Bartlett, of Clan Donald, visited Vern's parents, Mr. and Mrs. Calvin Bartlett, and Mr. and Mrs. Mustard at Seba on the

weekend.

It was pleasant to get first hand news of the Tom Rosses, formerly of our town, now living in Viking. Tom is just put putting the finishing touches to their new, split level home and their store business is thriving.

Joe: "Why is your car painted blue on one side, and red on the other?"

Moe: "It's a great scheme. You should hear the witnesses contradict each other."

## ROY BURROWS MOTORS LTD.

PHONE 542-4200 -- DRAYTON VALLEY, ALBERTA

A projection of vegetable requirements of Canadians indicates that present acreage will have to be expanded to meet consumer needs.

## Increased Vegetable Production Anticipated in Next Ten Years

LETHBRIDGE--Within the next ten years Canada will probably have to produce a much greater proportion of her vegetable requirements than she has in the past, says Dr. G.A. Kemp, plant breeder at CDA's Research Station here. Certain trends in vegetable production and consumption have developed in Canada and the U.S. during the past 18 to 20 years which, when projected, can help us predict with fair accuracy what may occur in the near future.

As the economy of a country improves, food preferences change. In Canada the consumption of fresh vegetables has increased at a far greater rate than has our production. Therefore, Canada has become increasingly dependent upon imports to make up this difference. At present 40-50 per cent of our fresh vegetables are

obtained from the U.S.

In the U.S., vegetable production and consumption statistics indicate that a surplus is presently being produced. However, vegetable consumption is increasing faster than production there also, and is predicted to overtake production by 1985. Consequently, surplus vegetables upon which Canada is dependent could become limited at a much earlier date, making it necessary to find alternate supplies.

To meet Canada's projected requirements we must be prepared to produce vegetables in quantities approaching our total requirements, says Dr. Kemp. Population projections indicate there will be 24 million Canadians by 1975 and 26.6 million by 1980.

With consumption of vegetables expected to reach 200

pounds per capita per year by 1975, Canada might require the equivalent of an additional 100,000 acres in vegetable production by 1975 and 150,000 acres by 1980.

There is little room for any appreciable acreage increase in eastern Canada. On the prairies several areas are suitable for vegetable production. A limited, unirrigated area exists in Manitoba, and a potential irrigated area in Saskatchewan. In southern Alberta 800,000 acres of irrigated land is available, much of which is suitable for the growing of most vegetable crops.

It is in this region of southern Alberta that the major expansion in vegetable production will have to occur if Canada is to produce her future vegetable requirements.

## Klondike Carnival At Seba Beach

The Klondike Carnival jointly sponsored by the Students' Union and the Student, Teacher, Parent Association was enjoyed by a large crowd Saturday night, April 6th in the school auditorium. Young and old alike were dressed in colorful Klondike costumes.

A variety of games of skill filled more than a dozen booths built of rustic logs which lined the sides of the gym. Bingo was played in one end of the gym while Lorenz's orchestra in the opposite end supplied music for those who chose to dance.

George Mann acting as Master of Ceremonies for the evening, introduced a host of talent. Klondike Kate, former student Lynda Taschuk, sang and acted as hostess. Our local can-can girls proved to be talented hoofers and Dan McGrew also put in an appearance.

Food of all kinds added the "taste" of a true Klondike. Hot coffee, hamburgers, foot long hot dogs, pop corn, corn on the cob, candied apples and ice cold pop added to the Klondike spirit.

Our congratulations to Diane Bush who was crowned Klondike Queen.

While giving thanks to all those who helped to make the evening a happy success may we also ask your help in attempting to recover a carnival hat, an irreplaceable keepsake loaned to us by a widow for the

occasion. The hat is a multi-colored red, white, yellow and blue satin trimmed with gold braid and bells. If you know the whereabouts of this hat, please contact the Seba Beach Telephone Office. Thank you.

## Winners Named

The winner of the "Name the Bunny" contest held recently at Bambees was won by Ronald Gloves of Drayton Valley who guessed the chosen name, "Bambee". A draw was also made to name a second rabbit. Master Willie Eustace won naming it "Tweetie Pie".

The lucky winners received wallets for their efforts.

## Vacationers Return

Mr. and Mrs. Pete Jacobs  
and Mr. and Mrs. John Moodie  
returned home Monday evening  
from a week's vacation at San  
Francisco and Las Vegas.  
They had wonderful weather  
and report an enjoyable but  
"too short" holiday.

"The lights are turned out at  
ten o'clock," said the girl's  
father to the young man.  
"That's OK. We won't be  
reading."

## FACTS ABOUT CANADA

Very few persons realize the  
sheer immensity of the Canad-  
ian Forest estate. One could  
fly from eastern Quebec due  
west for 1,700 miles to Lake  
Winnipeg and then after a 300-  
mile offset to the north, con-  
tinue for another 1,300 miles  
to the west coast and pass over  
almost continuous forest cover  
all the way.

In the east the stands of con-  
ifers and hardwoods are broken  
by innumerable lakes and in  
the west by the barren peaks of  
the mountains; otherwise, the  
land beneath the line of flight  
is occupied by countless mil-  
lions of trees.
